- Special-use receptacles, 73.310.0453.0 and 73.300.0453.0.
- Special-use connectors and receptacles, 73.300.1053.0, 73.300.1653.0, 73.300.1653.3, 73.310.1053.0, 73.310.1653.0 and 73.310.1653.3.
- Special-use connectors and receptacles, 73.800.2453.0, 73.800.4253.0, 73.800.7253.0, 73.800.7253.3, 73.800.0853.0, 73.800.0853.3, 73.810.2453.0, 73.810.4253.0, 73.810.7253.0, 73.810.7253.3, 73.810.0853.0 and 73.810.0853.3 position, grounding type 20A, 600V ac.

Notes:

1. These special-use connectors and receptacles are Certified for sale only to manufacturers, as components, for the assembly of Certified electrical equipment.
2. Not for interrupting current.
3. Subject to investigation in the end use.
4. For crimp-type connectors and receptacles, the terminal manufacturer's recommended tooling is used and that the terminal barrel (e.g., forming the crimp) is of the size recommended for the wire.
5. Equipment may be identified by Order Number which has the form of 2 digits, decimal point and 4 digits.
6. Equipment is rated 75C unless assembled with hardware which incorporates moulded rubber gaskets etc., which are rated 60C.
